Plan 4
October 2 – October 9

- Read Sections 4.13-14 of Chapter 4 in the textbook.

- **Exercise 6**. Solve exercise 35 in Chapter 4 (page 287).

- **Exercise 7**. Extend MARIE with an instruction, `Mult`, for doing integer multiplication. Document your corrections of the source code. *Hint*: Two files need to be corrected: MarieSim.java and Assembler.java.

- **Exercise 8**. Solve exercise 6 again, this time using the new `Mult` instruction.
