

Opgave 8.1

```
public class SetOperations {
    public static Set union(Set s1, Set s2) {
        Set s = new HashSet(s1);
        s.addAll(s2);
        return s;
    }

    public static Set common(Set s1, Set s2) {
        Set s = new HashSet(s1);
        s.retainAll(s2);
        return s;
    }

    public static Set difference(Set s1, Set s2) {
        Set s = new HashSet(s1);
        s.removeAll(s2);
        return s;
    }
}
```
